

Call for Papers

Annals of Operations Research

Special Issue: MCDA in Climate, Technology & Finance

Annals of Operations Research seeks submissions for a special issue on **MCDA in Climate, Technology & Finance**. We expect high-quality and original research papers. We would especially welcome innovative contributions and applications of methods based on multi-criteria decision analysis and their combination with computational aspects in real-life problems. The utmost purpose of the underlying thematic is to fruitfully integrate all the forces that have effect in the current turbulent global environment. The special issue is open to the whole OR community, and the major evaluation criterion will be the quality and originality of the contribution. We also encourage the participants of the **96th Meeting of the EURO Working Group on MCDA (EWG-MCDA)**, organized by **ESSCA School of Management** (<https://www.essca.fr>) on September 21-23, 2023 in Paris (<https://mcda96.sciencesconf.org>), to submit their work. Authors should submit a cover letter and a manuscript by December 31, 2023, via the journal's online submission platform. Manuscripts submitted after the deadline will not be considered for the special issue. Please carefully check the author instructions: <https://www.springer.com/journal/10479/submission-guidelines>. When prompted for the article type, select Original Research. On the Additional Information screen, you will then be asked if the manuscript belongs to a special issue. Please choose the special issue's title to ensure it will be reviewed for this special issue. Papers will be subject to a strict review process under the supervision of the Guest Editors.

Guest Editors

Prof. Panos XIDONAS, ESSCA School of Management (Panos.XIDONAS@essca.fr)
